

# HEAT PIPE SCIENCE AND TECHNOLOGY, AN INTERNATIONAL JOURNAL

Volume 3, Numbers 2-4, 2012

---

## Special Issue on Heat Pipes from the 16th IHPC

### CONTENTS

<b>Preface</b>	vii
<i>Jocelyn Bonjour</i>	
<b>Thermal Transport Behavior of a Liquid Plug Moving Inside a Dry Capillary Tube</b>	97
<i>Ashish Kumar Bajpai &amp; Sameer Khandekar</i>	
<b>Analysis Of The Onset Of Drying Of A Porous Ceramic Wick Applied To A Capillary Pumped Loop And A Loop Heat Pipe</b>	125
<i>Paulo H. D. Santos, Amir A. M. Oliveira, &amp; Edson Bazzo</i>	
<b>Modeling Transient Acceleration Effects On Heat Pipe Performance</b>	153
<i>Jay Ambrose</i>	
<b>Relative Thermal Performance of Supercritical CO<sub>2</sub>, H<sub>2</sub>O, N<sub>2</sub>, and He Charged Closed-Loop Thermosyphon-Type Heat Pipes</b>	169
<i>Robert Dobson</i>	
<b>Evaporation from Microporous Surfaces in a Mechanically Pumped Two-Phase Loop</b>	187
<i>Matthias Winter &amp; Peter Stephan</i>	
<b>The Influence of Groove Shape on Loop Heat Pipe Performance</b>	203
<i>Masakazu Kuroi &amp; Hosei Nagano</i>	
<b>Oscillating Heat Pipes With Temperature Control</b>	223
<i>Naoko Iwata, Hiroyuki Ogawa, &amp; Yoshiro Miyazaki</i>	

<b>Automated Charging of Embedded Heat Pipe Systems</b>	233
<i>Wessel W. Wits, Johannes van Es, &amp; Gert Jan te Riele</i>	
<b>Two-Phase Cooling System for Aircraft Actuators</b>	247
<i>O. Berder, V. Dupont, L. Barremaecker, &amp; C. Guichard</i>	
<b>Set-Point Active Control of Vapor-Modulated Loop Heat Pipe</b>	263
<i>A. Torres, D. Mishkinis, F. Romera, J. Corrochano, &amp; T. Kaya</i>	
<b>INDEX to Volume 3</b>	281
